

DEPTH STUDIES WITH TARONGA ZOO FOR STAGE 6 BIOLOGY, EES AND INVESTIGATING SCIENCE

Course information

This session is for Stage 6 teachers of Biology, Earth and Environmental Science and Investigating Science.

Participants will:

- gain a deeper understanding of the NESA requirements for teaching Depth Studies in the Stage 6 science syllabuses.
- develop a common understanding of the assessment requirements for the new Stage 6 science syllabuses.
- collaboratively develop a Depth Study that includes Taronga Zoo as a resource.
- collaboratively develop a marking rubric for assessing a Depth Study.

Participants will be required to show evidence of their developed depth study in their teaching and learning programs.

Participants: Stage 6 teachers - Biology, Earth and Environmental Science, Investigation Science
